MAPLE RIDGE TOWNSHIP SNOW REMOVAL POLICY

Notice is hereby given that Maple Ridge Township will generally begin snow removal operations after approximately three (3) inches of snowfall. Plowing may be delayed when weather conditions create unsafe visibility.

Residents are reminded that it is unlawful to place snow onto or across public roadways. Property owners may be held liable for damages or accidents resulting from snow deposited on roadways. Residents are also encouraged to remove parked vehicles from township roads during snow removal operations.

Claims for damage to mailboxes or fences will be considered only when damage results from direct contact with township equipment and the structure was properly installed. Township equipment will not remove stuck vehicles. Emergency plowing may be authorized when necessary.

By Order of the Maple Ridge Township Road Authority

Stacy M. Pearson

Township Clerk

Maple Ridge Township, Minnesota
